## CITE IS NOW ONLINE

»» Madonna releases her debut single "Everybody."  
Reagan predicts the ultimate victory of "freedom over communism." Argentina invades the Falklands. JPMorgan Chase Tower is completed, towering 72 stories over Houston. Rice Design Alliance launches *Cite*, in which Stephen Fox worries that the proposed Menil building could "turn out to be overwhelmingly non-monumental." That issue, plus 75 more, and counting, can be found on-line, free, and in searchable pdf format. The most recent issues are available in print.
